

ONE-ON-ONE VOCAL COACHING Weekly Subscription

@IMOLA.VV

Momentum. Consistency. Real Progress.

€204 / 4 x 60 min or **€255 / 5 x 60 min** (charged monthly)

The weekly coaching programme is designed for those who want to **work consistently, consciously and long-term on their voice**. We meet for one personalised 60-minute session every week, always at the same fixed time.

Consistency creates a process in which technical skills can truly become part of your voice. Every session connects to the previous one: **we remember where you were, see what has changed and know exactly where to go next**.

A weekly rhythm helps you to:

- build a stable, sustainable practice routine
- make technical changes truly stick
- notice and correct unhelpful habits earlier
- receive continuous, personalised feedback
- turn your goals into tangible progress
- make singing and musical development a natural part of your life
- gradually develop your own voice and artistic identity

The content of each session evolves with your goals and development. We can work on:

- vocal technique, breathing, resonance and vocal range
- vocal control and conscious use of the voice
- songs, interpretation and performance
- stylistic phrasing, articulation and musical character
- intonation, rhythm and musical expression
- stage presence and performance skills
- songwriting and lyrics
- music theory
- teaching/learning methodology and professional supervision
- personalised practice and long-term development goals

Sessions are **60 minutes long** and take place **in person in Sopron, online via Zoom**, or in a hybrid mode, at the same fixed time every week.

Sopron Studio Session

Within the weekly subscription, **one coaching session can be replaced by a Sopron studio session once every six months** upon request. This is a minimum **2-hour in-person studio session**, during which we work together in the studio instead of having the regular individual coaching session: **singing, recording and developing your material according to your musical and performance goals.**

My presence and professional guidance are fully included in the session, while the **studio rental fee is charged separately.**

And There's More...

Your weekly subscription also includes **free participation in a 3-hour in-person workshop in Sopron**, organised quarterly.

The workshops include:

- professional talks and inspiration
- small-group self-awareness work
- community experiences and connection
- teacher and student feedback
- collaborative musical and practical work

Weekly coaching therefore becomes **a continuous development process, personalized professional guidance and an inspiring community experience all in one.**

Cancellation & Rescheduling

Please cancel or reschedule your appointment at least **48 hours in advance** – thank you for your understanding!

Cancellations made within 48 hours are charged at the full session rate.

Sessions cancelled within the required timeframe will be **flexibly rescheduled for another suitable time**. If a session has to be cancelled because of me, I will always provide a make-up session. If the offered make-up option is not suitable for you, **the price of that session will be refunded.**

Technical Requirements for Online Sessions

For online coaching, you will need:

- a **reliable computer or laptop**,
- good-quality **headphones/headset**,
- and a **second device** such as a phone.

Ready to Join?

If this training format feels right for you, **click the button and send your application**.

Once I receive it, **I'll get in touch with you** to discuss the details and arrange your first session.
