

ONE-ON-ONE VOCAL COACHING 10-Session Package

@IMOLA.VV

Ten sessions for a conscious, structured process.

€540 / 10 x 60 min (payable in full or in two equal installments)

The 10-session package is designed for those who want to **develop consciously, progressively and over a longer period**, while keeping the flexibility of individually scheduled sessions.

Consistency allows every session to build on the previous one: we can see where you started, track your progress and identify the next step. You have time to practise between sessions, and each new lesson builds on your experience and the work you have already done.

The package includes **10 × 60-minute individual coaching sessions**, which can be **scheduled flexibly and used within six months**.

We can work on:

- vocal technique, breathing, resonance and vocal range
- vocal control and conscious use of the voice
- song structure, interpretation and performance
- stylistic phrasing, articulation and musical character
- intonation, rhythm and musical expression
- stage presence and performance skills
- songwriting and lyrics
- music theory
- teaching/learning methodology and professional questions
- personalized practice strategies and consciously tracking your development

Sessions take place **in person in Sopron, online via Zoom, or in a hybrid format**. The fee is **payable either in full or in two equal installments over two consecutive months**.

Sopron Studio Session

Within the 10-Session Package, **one coaching session can be replaced by a Sopron studio session upon request**. This is a minimum **2-hour in-person studio session**, during which we work together in the studio instead of having the regular individual coaching session: **singing, recording and developing your material according to your musical and performance goals**.

My presence and professional guidance are fully included in the session, while the **studio rental fee is charged separately**.

Cancellation & Rescheduling

Please cancel or reschedule your appointment at least **48 hours in advance** – thank you for your understanding!

Cancellations made within 48 hours are charged at the full session rate.

Sessions cancelled within the required timeframe will be **flexibly rescheduled for another suitable time**. If a session has to be cancelled because of me, I will always provide a make-up session. If the offered make-up option is not suitable for you, **the price of that session will be refunded**.

Technical Requirements for Online Sessions

For online coaching, you will need:

- a **reliable computer or laptop**,
- good-quality **headphones/headset**,
- and a **second device** such as a phone.

Ready to Join?

If this training format feels right for you, **click the button and send your application**.

Once I receive it, **I'll get in touch with you** to discuss the details and arrange your first session.
